ORGANIZATION

- 1- Official international competitions shall only be organised by national Federations that are members of C.I.P.S.. The organising Federation shall be officially responsible for the competition under consideration.
- 2- Only the members of a national Federation affiliated with C.I.P.S. who have fully paid their annual membership fees shall be allowed to participate. They shall be designated by their Federations; the anglers who belong to the teams of national Federations must hold the same nationality as their Federations.

There shall be only one (1) foreign competitor in each national Federation team, on condition that the following requirements are met:

- The application shall be forwarded by the Nation the angler wishes to represent;
- The application shall be complemented by a letter of the Sports Ministry of the concerned Country;
- The competitor shall have resided in said Country for at least 5 years.

Competitors shall always be able to prove their nationality by means of national IDs or passports.

All supporting documents shall be produced at the 1st team managers' meeting.

Any angler, who has already participated in a World Championship or in any international competition representing a Nation, shall not be allowed to compete for any other Nation.

Only teams that are members of national Federations shall be allowed to take part in World and Zone (Europe, etc.) Championships.

In order to apply to organize a championship, the Nation under consideration must have participated at least once, over the previous three years, in the championship that they wish to organize.

A preliminary programme shall imperatively be sent to F.I.P.S.e.d.'s Secretariat before

the end of November of the preceding year.

With the exception of the World Fishing Games, F.I.P.S.e.d. is officially tasked with providing the printed material, certificates and rankings for the awarding of prizes for all championships; therefore, the organizing Nation shall pay for all board and lodging expenses (room, meals and closing gala dinner) of the person performing such tasks. Said person's stay may begin on the eve of the competition and end on the day after the closing dinner; F.I.P.S.e.d. shall pay for the relevant travelling expenses.

For all F.I.P.S.e.d. championships, the organizing Nation shall cover all board and lodging expenses (room, meals and closing gala dinner) for two members of F.I.P.S.e.d.'s Executive Committee, and for the person in charge of the rankings; their stay may begin on the eve of the competition and end on the day after the closing dinner.

No championship organization shall be entrusted to a Nation if that Nation does not undertake to put live fish back into the water after they have been counted and weighed (it is forbidden to kill fish).

The Nation organizing a World or Zone Championship shall be responsible for procuring the trophies, which will be paid for by F.I.P.S.e.d.; the organizing Nation shall envisage 3 trophies for the team competitions, 6 trophies for the "pair" competitions **and 2 trophies for the "pair" who has caught the biggest fish. F.I.P.S.e.d. shall refund a maximum amount of € 550 for 11 trophies.** Such trophies shall feature a plate, carrying a "F.I.P.S.e.d." engraving or F.I.P.S.e.d.'s logo as well as the place and date of the championship. An invoice will be required in order to prove trophy-related expenses. If the aforesaid provisions (concerning the plate/logo) are not complied with, F.I.P.S.e.d. shall not reimburse any money. F.I.P.S.e.d. shall provide the medals.

Programmes and invitations for all championships shall only be sent to Nations that are members of F.I.P.S.e.d. (no invitations shall be sent to clubs or individuals).

- 3- Each C.I.P.S. member Nation shall be allowed to present one team only, composed of 3 "pairs" of competitors (for carp fishing, competitors compete in "pairs").

No competitor shall be allowed to participate as an individual.

Maximum two reserves will be allowed for each Nation. If an angler is replaced, the substitution shall be final. Competitors that are replaced for technical or medical reasons shall be replaced under the supervision of the stewards. The reserves may enter the peg with their fishing tackle, but without their baits and ground baits.

It shall be possible to replace one or two members of a "pair". It shall also be allowed to replace two competitors belonging to two different "pairs" with the two official reserves. Maximum two changes shall be allowed.

- 4- Competitions shall be organized at watercourses, such as rivers, canals, or at suitable stretches of water, such as lakes etc.; it must be possible to fish along the entire width of the venue. The venue's average depth shall be of at least 1.5 meter. The minimum width of the venue shall be 100 meters for rivers, if the competitors are lined up on one shore only. For all other stretches of water (without currents), the venue's minimum width shall be 100 metres, with the competitors being lined up on one shore only, or 300 meters if the competitors are lined up on both shores. The carp population shall be sufficient, with a good percentage of fish weighing between 3 and 5 Kg.

Any possible fish-restocking program must be submitted to F.I.P.S.e.d.'s Technical Commission for approval. In any case, fish-restocking shall take place at least 3 months before any championship. A video or photographs documenting the restocking operations shall be shot/taken by the organizers and sent to the F.I.P.S.e.d. Technical Commission.

- 5- The selected venue shall offer equal fishing conditions for all competitors; the venue should be free from obstacles – to the extent possible – including power lines, bridges etc., except from the space between the sectors; sectors shall be at least 200 metres far from each other. The venue shall not expose the competitors or the spectators to any kind of danger. Medical facilities shall be set up near the fishing sectors. Organizers shall make toilets, showers, and washbasins available to the anglers.

When selecting a venue, lakes should be preferred to rivers or streams, and they shall allow accommodating 25 Nations.

One or more members of the Technical Commission or a competent delegate shall inspect the venue that may be selected for a championship, and said inspection shall take place at the same time of the year as to that proposed for the organization of the competition under consideration. F.I.P.S.e.d. shall pay for the travelling expenses (including flight and train tickets or car) of the Technical Commission's member(s), while the organizers shall cover all transfer costs from the airport or train station, and will pay for accommodation and meals. A report of the inspection shall be submitted to the Executive Committee of F.I.P.S.e.d. for evaluation and approval. The final decision on the approval or rejection of a venue by F.I.P.S.e.d. shall be communicated to the candidate Nation.

With regard to accommodation, participating Nations shall have two options:

- 1- Opting for the official accommodation proposed by the organizing Nation (optional). In that event, the organizing Nation shall clearly indicate the terms and conditions for the stay, including:
 - The half-board price per night per person for, depending on the number of persons sharing each room, regardless of the duration of the stay (full board cannot be mandatory); the participating Nation shall specify the dates of their anglers' stays (the term "official stay" used by many Nations, starting on Thursday, has never appeared in any regulations, and therefore should not be used);
 - The price of the closing gala dinner.

The accommodation terms proposed to the Nations shall first be approved by the Technical Commission.

- 2- Selecting their hotels by themselves.

If this is the case, participating Nations shall be required to communicate their accommodation-related choices to the organizing Nation upon registration (in the official registration form).

In both cases (participation through or without the help of the organizers), the registration fee is € 1350, which includes 11 closing gala dinners and 8 fishing permits for the whole duration of the championship, insurance and sundry expenses such as gifts, cups, trophies, etc..

For the closing gala dinner, be it a dinner with table service or a buffet dinner, participating Nations shall be assigned a number of seats corresponding to the number of gala dinner seats they reserved.

If no details about the accommodation have been specified by the deadline set by the organizers, the participating Nations shall imperatively have to book their accommodations themselves and shall still pay € 1350 to the organizers.

Any Nation that undertakes to take part in a championship by filling in the relevant registration form but does not show up, shall, in any case, pay the contribution of € 1350 to the organizing Nation. Nations failing to comply with this provision shall be forbidden from taking part in and organizing future championships.

All Nations shall communicate their arrival dates to the organizing Nation at least one week before the competition. Any absent Nation **(that has not arrived) at the first team managers' meeting** shall be considered as a WITHDRAWING Nation and shall not be allowed to participate in the championship **(see penalties under article 31 § c).**

Together with the event programme, the organizing Nations shall provide a list of hotels, lodgings, rooms and campsites located within a 20-km range from the venue.

The organizers shall see to it that all registration forms are duly filled in and carry the mobile phone numbers of one delegate and one team manager. Addresses and emergency telephone numbers (police, fire-fighters, hospitals, etc.) shall be provided in the program leaflets.

The "Carp Fishing" World Championship shall take place in late September.

- 6-** For the competitions, the distance between the fishing areas of each "pair" (to be measured from the exterior of an area to the exterior of the other area) shall be between minimum 40 metres and maximum 100 metres for waterbodies (like lakes, ponds etc.); and minimum 70 metres for rivers. For waterbodies, the 40-metre minimum distance may be reduced subject to F.I.P.S.e.d. approval.

The angling area of each "pair" shall consist of "20 x 12 metre" peg, which may be entirely used and shall allow setting up camping tents and umbrellas. No bright colours shall be used for said tents and umbrellas (dark green, khaki or "camouflage"). The fishing area shall be staked out; the poles shall be well driven into the shore and along the sides of the safety lane; furthermore, they shall be evenly spaced, 20 metres from each other. Similarly, a D corridor shall be created, which will serve as a passageway for organisers, Jury members, reserves, journalists, and delegates of all participating Nations. Access to such security corridor shall be forbidden for the public and the spectators.

Team managers – 2 per Nation – may enter their teams' competitor pegs; team managers shall wear green back-numbers marked with a C, clearly indicating their status. Only one team captain shall be authorised inside a peg. Reserve competitors shall wear a red back-number marked with an R letter.

The organization shall customize each pair's peg by means of a board indicating the names and the nationality of the pair's competitors, as well as the number, weight and type of every fish caught, updated every 6 hours. **Such boards are provided by F.I.P.S.e.d.'s person in charge of the rankings.**

- A -** Access authorised for two competitors, their team managers (one at a time) and Jury members.
- B -** Access authorised for Jury members, reserves, stewards, the Team Managers of the Nation to which the competitors belong and the press, with the consent of the two competitors.
- C and D -** Access authorised for the organisers, Jury members, reserves, press and Delegates of all Nations, but forbidden to the public and to spectators.

It is not allowed to prepare the material until the signal is given that the competitors are allowed to enter their pegs. During preparation, the competitors may not get any help. The bait and all pieces of equipment may be handed over to the competitors until the ground baiting signal is given. After the signal, only once during the entire competitions shall it be possible to hand over baits, ground baits, equipment, or fishing tackle to the anglers, and this through their team managers. During the competition, the keepnets shall be immersed into the water to their full length, and shall contain no lead, ballast, or any other object. Throughout the competition, no other system for preserving the caught fish shall be used. After the weighing, the fish shall be put back into the water alive and with care.

Fishing tents are compulsory inside the pegs.

It is forbidden to light the water by means of torches or lamps; however, it is allowed to use illumination aids inside the tent (discrete lighting with a frontal torch shall be allowed to net fish).

At the end of the competition, the pegs shall to be left absolutely clean.

All devices propelled by compressed air, gas or electricity are forbidden.

-21- Competitors may use the space of the peg allotted to them however way they wish.

Inside the peg allotted to them, the competitors shall move discretely and noiselessly. All angling actions shall only take place inside the peg (throw-in, recuperating, ground baiting and netting).

Using of "flashes" or any other lighting system is forbidden at night (hours to be established at the first team managers' meeting).

-22- The anglers shall wait for the first signal before entering their peg; after the signal, the competitors may start preparing their equipment, testing their lines, and preparing their ground bait (**see quantity-related provision in article 14**). They shall be allowed 120 minutes to perform said preparatory operations; **anglers are not allowed to get out of**

their pegs during preparation.

When the second signal is given, the anglers may start ground baiting and fishing.

In this event, a 5th signal shall be given 15 minutes after the 4th signal; after the 5th signal, only the fish that is fully out of the water shall be counted.

The acoustic signals for the different phases of the championships shall be short; in all cases, the beginning of the signal is taken into consideration.

- 23- During the competition, individual stewards shall stand behind the anglers, on their right or left side, in such a way that they do not bother the anglers, but can still control the fish caught by the competitors assigned to them. Carp keep-nets shall be positioned so that the stewards can see them; the fish shall be put in the net and kept alive until the weighing team arrives.

WEIGHING OPERATIONS

- 24- The weighing operations shall be performed by three teams composed by 2 elements each (one team for each sector). Carp keepnets shall be of a special type, suitable for the weighing of carps; they shall be made of a soft, synthetic material, which is permeable and fretworked. The keepnets shall be identical for all three sectors.

Weights shall be recorded in grams.

- 26- Until the arrival of the weighing team at their pegs, the competitors shall leave their carp keepnets in the water. The caught fish shall be carefully taken out and put in the weighing keepnet; it shall be put on a reception bed by a member of the team of the “pair” concerned; after weighing, the fish shall be put back into the water under the supervision of the stewards (after weighing, the fish cannot be put back into the keepnet). This operation shall be performed with great care.
- 27- The two anglers making up the “pair” shall be present in order to witness the weighing operations and sign the weighing protocol, where the weight of the catch is recorded. Once the weighing procedure is over, the fish has been put back into the water, and the weighing protocol has been signed, no complaint about the weight shall be accepted.

THE JURY

- 28- An international Jury shall be appointed to examine any complaints lodged and to apply penalties as per the rules; the Jury shall be established at the first team managers’ meeting.

A € 100 deposit - **for which the F.I.P.S.e.d.'s general Secretary or his delegate shall issue a receipt** - shall complement any written complaint submitted to the Jury. Should the complaint not be judged grounded by the Jury, the deposit shall be transferred to F.I.P.S.e.d.'s bank account.

All infringements and warnings shall be reported to the Jury, with the Jury being the only authority enabled to disqualify anglers. Any "pair" who is imposed a penalty shall be informed immediately.

- c) **Disqualification of the Nation for the infringement of articles 5 and 37.**
- d) When a "pair" is disqualified, a number of points equal to the number of the participating Nations + 1 will be assigned to it. If a "pair" is disqualified, the "pairs", which follow upon it in the ranking, will keep their original ranking (for example: X that was qualified 8th is disqualified, the subsequent "pairs" will keep their places and will mark 9 points, 10 points, and so on).
- e) Any warning given to a Nation shall be recorded in that Nation's file and shall remain in the files for a period of 3 years. Any new infringement over these 3 years shall be considered as a "relapse" and the Jury shall make its decision considering such relapse and the list of penalties.

- f) Any warning given to a “pair” shall be recorded in the pair’s file for a period of 3 years. Any new infringement shall be considered as a “relapse”, and the Jury shall make its decision considering such new infringement and the list of penalties.

-32- The members of F.I.P.S.e.d.’s Executive Committee may access the competition venue and take note of any infringement of the Rules.

RANKINGS

-33- 1- RANKING BY SECTOR

a) Ranking by sector shall be drawn up based on the weight (1 point per gram).

The competitor who recorded the highest weight shall be given 1 penalty, while 2 penalties shall be attributed to the second one, and so on.

b) In the event of a tied score (same weight) in the same sector, the “pairs” concerned shall obtain a number of penalties equalling the average placing they should have had (example n° 1: two “pairs” placed equal 5th shall obtain $(5+6):2 = 5.5$ penalties each; example n° 2: three “pairs” tying in the 8th placing, totalise $(8+9+10):3 = 9$ penalties each).

c) “Pairs” who have not caught any fish will receive a number of points equal to the average value of non-attributed places in their sector (example n° 1: 24 “pairs”, 12 of whom rank at the first 12 places with penalties ranging between 1 and 12, the following “pairs” will mark $(13+24):2 = 18.5$ penalties each; example n° 2: 29 “pairs”, 5 of whom have caught fish and scored 1 to 5 points - the 24 “pairs” who have not caught any fish mark $(6+29):2 = 17.5$ penalties; example n° 3: 29 “pairs”, 26 of whom have caught fish, whereas the 3 “pairs” who have not caught any fish will score $(27+29):2 = 28$ penalties. If there is only 1 “pair” who has not caught any fish or a missing “pair” in a sector, they shall obtain a number of penalties equalling the last position in the sector (example: 29 “pairs”, 28 of whom have caught fish, whereas one “pair” has not, the latter will get 29 penalties).

2- GENERAL TEAM RANKING

a) Total of the penalties obtained in each sector by the “pairs” of the same team; the national team with the lowest number of penalties shall rank 1st, and so on.
